

## MISCELLANEOUS PIECE: Q&A FOR WEBSITE

### **Q: HOW TO DONATE CLOTHES?**

A: You can schedule an appointment with us about donation via phone-call at (617)340-9414 or email us at [director@threadedma.org](mailto:director@threadedma.org)

### **Q: I NEED A DONATION RECEIPT?**

A: Fill out our Google Form on our website, and we will get back to you with a tax receipt within 3-5 business days. Or email us at [director@threadedma.org](mailto:director@threadedma.org)

### **Q: WHAT KIND OF CLOTHES DO YOU SELL?**

A: We sell a variety of second-hand brand clothes from: Louis Vuitton, Gucci, Chanel, Fendi, etc. The items of clothes vary per season, but have in the past included the following items: coats, dresses, pants/jeans, skirts, sweaters, tops.

### **Q: HOW TO BUY YOUR ITEMS?**

A: You can find our items on our website or our [Ebay](#) and Etsy. If you have any questions about size, price or items, please feel free to contact us via phone (617)340-9414. Or email us at [director@threadedma.org](mailto:director@threadedma.org)

### **Q: HOW LONG TILL I RECEIVE MY ORDER?**

A: We will process your order within two business days and depending on the shipping method you prefer.

### **Q: HOW MUCH DOES SHIPPING COST?**

A: Shipping is free of charge depending on the items. Shipping is tailored based on the items.

### **Q: WHERE DOES THE SALE GO?**

A: Profits directly benefit the students in need by providing low-income students with scholarship money to use for books, classroom needs, etc. Any money that is not used immediately is then added to the overall donations fund.

### **Q: I WANT A REFUND AND RETURN?**

A: All sales are final for all in-person sales. Customers could pay for shippings for refund and return with original quality and condition.

## **INTERN OF THE MONTH FOR WEBSITE OR SOCIAL**

Congratulations to the intern of the month, Christine. She is an inspiration to us all! Christine's outstanding performance helped push up our company revenues to greater heights. Thank you!

"As the organization's Co-Founders, we want to recognize your hard work in building our social media presence and networking system. Your hard work is turning into tangible profits for our team and organization. Congrats!" said Laurel Sgan, Co-Founder of ThreadEd, Fashion for a Future. Christine exemplifies the social media work for the organization's Instagram. Within the last 28 days, we have seen a 270.1% Instagram reach increase and a 90.2% increase in Instagram profile visits. There has also been a 67% increase in overall Instagram growth. It is all because of Christine's work.

Thank you again for exemplifying your value to our organization and community!

## **SOCIAL MEDIA STRATEGY**

### **SOCIAL MEDIA PLATFORM AUDIT**

#### **FACEBOOK @Threaded: Fashion for a Future**

322 followers, 296 likes on the page, five people checked in, 5 Star review

The posts on Facebook categorize as 93% promotions and 7% informational posts. There are few likes and comments and barely any engagement from the audience. The average number of likes is about seven likes with zero comments. Outfit videos resonated the best with the audience—hashtags such as #ShoppingWithAPurpose. The post with #ShoppingWithAPurpose has more engagements on likes compared to other posts. For instance, on May 10, the post with the hashtags had 88 likes. The average amount of comments totals zero. All posts' engagement rate is 0.02%. I analyzed the posts on Facebook in the last six months (Apr. 18, 2022 - Oct. 20, 2022) The majority of the posts are promotional. The organization is eager to promote their donation drives and their sale items. However, the average likes per post is 11 likes and one comment. Most informational posts are regarding being eco-friendly and environment safety. Both informational and promotional posts are 100% pictures from the organization or repost from somewhere's page.

The timing and frequency of Facebook has slowly improved to one post per week. Those posts were not pre-planned and they are only posting based on the photo taken by the organization.

#### **INSTAGRAM @fashion4future**

433 Followers and 749 Posts

The posts on Facebook can categorize as 93% promotions and 7% informational posts. There is a small amount of likes and comments and barely any engagement from the audience. The average number of likes is about eight likes with zero comments. Many of the posts on Instagram are similar on Facebook. The captions, hashtags, and visuals are almost identical. The average amount of comments totals zero. All posts' engagement rate is 0.018%. I analyzed the posts on Facebook in the last six months (Apr. 22, 2022 - Oct. 20, 2022) The majority of the posts are promotional. The organization is eager to promote their donation drives and their sale items. However, the average likes per post is 14 likes and one comment. Most informational posts are regarding being eco-friendly and environment safety. Both informational and promotional posts are 100% pictures with no videos from the organization or repost from somewhere's page.

The timing and frequency of Facebook has slowly improved to one post per week. Those posts were not pre-planned and they are only posting based on the photo taken by the organization.

**PATTERN**

ThreadED primarily focuses on Facebook and Instagram. Both pages showed very similar graphics and photos. It is almost identical since the organization has similar contents on both pages which will cause their target audience to see the same contents over and over again as well as sharing the same engagement rate.

**WEEKLY SOCIAL MEDIA CALENDAR:**

JJ DIARY SPECIAL
**VERSE #2**
DAILY REPORT

VOL.94 (1)
JJ PROJECT 1ST EXTENDED PLAY
31 JULY 2017

# TOMORROW, TODAY

Jay B and Jinyoung going on a roadtrip at Hokkaido, Japan.

Why do I have to pick tomorrow today? How would I know what's going to happen tomorrow? My dreams and dreams are fading away. If you could show me my future, turning my time forward... which way to go down, which are my ways, I would know. You keep pushing me while my eyes are half-closed, telling me to pick which one to go with.

**Somebody let me know.**  
Tell me which way to go, cuz I don't, don't, don't know. Today I hesitantly answer the questions again, that I don't even know the answer to.

**Is it this way? or that way?**  
My decisions are getting scary. With an unstable state of mind, mind, mind, I'm confronting the next, next decision. I'm scared. Will I ever find mine among these ways I've never been to?

Answering the never-ending questions even on a busy day, I keep looking back even though I'm going forward. What will I be at the end of the road? Will I regret looking back later? My weak side fights my strong willed side anytime, I do it to myself. I walk again with my message worked to and here it goes again. Oh no, no, no.

Today I hesitantly answer the questions again, that I don't even know the answer to. Is it this way or that way? My decisions are getting scary. With an unstable state of mind, mind, mind, I'm confronting the next, next decision.

Days by days, through the days faded away, I stand here now letting another irreversible day go by. Like this today I hesitantly answer the questions again, that I don't even know the answer to. Is it this way or that way? My decisions are getting scary.

Separation is inevitable, but temporary.

There's no returning to the road of JJ Project.

**Tell me. Tell me. so tell me which way to go.**  
I'll me; tell me, so tell me which way to go (which way to go). Tell me, tell me, so tell me which way to go.

Jan. 13, 2023, Friday

## HOW SUSTAINABLE ARE THESE FABRICS?

If you're looking to live a more eco-friendly life, looking at your fashion habits is a great way to start. I advocate for buying second-hand and wearing what you already have, but if you need to buy new, here's a rundown of some common materials...

[www.jessrigg.com](http://www.jessrigg.com)

### COTTON

It's very thirsty and labour intensive. 1kg (a t-shirts worth) of cotton farmed conventionally can use 20,000 litres of water. Look for Organic or Recycled Cotton.

### HEMP

A quick-growing plant which uses half the space and half the water that cotton does. Make sure that it's manufactured without harsh chemicals and isn't dyed.

### LINEN

When undyed, Linen is biodegradable. It's made from Flax which is grown with less pesticides and water than cotton. It can be quite pricey go second-hand or se it as an investment

### BAMBOO

Another fast growing plant which doesn't need lots of land, water or pesticides. During processing, lots of harsh chemicals are used, then released into the local area. Look for closed-loop.

### LYOCELL

Also known as Tencel, it's made from wood pulp and uses a closed loop production meaning that the water & chemicals are retained to be used over and over.

### ECONYL

This fabric is made from recycled Nylon. Whilst it's great for reducing the plastic in our oceans by utilising fishing nets, garments still release micro plastics.

### PLASTIC

Polyester, Nylon, Acrylic, Polyamide, Elastane and any other material made from plastic are one's to avoid. They're made from oil and will leech micro plastics into our waterways.

Jan. 17, 2023, Tuesday

### FUN FACT TUESDAY

HOW SUSTAINABLE ARE THESE FABRICS? Making sure what kind of fabrics are suitable for the environment? Comment down below what you learned from it.
